

FORD MUSTANG

Go Further

DISTINCTIVE

At last, the sensational all-new Ford Mustang is here. Loaded with innovative technology and delivering world-class levels of performance and style, the new Mustang is ready for the road. Are you?

ICONIC

Taking inspiration from cockpit design, the all-new Ford Mustang delivers a thrilling driving experience. All the important controls are within easy reach with **aircraft-style toggle switches** and a short-throw manual **gearshift**. The **steering wheel** feels just right in your hands, while **Ford SYNC 2 with Voice Control and Touchscreen** responds to your voice and reacts to your touch.

LIBERATED

Enjoy the wind in your hair with the captivating all-new Ford Mustang Convertible. Designed from the start as a convertible, it's packed with all the performance and attitude of the Fastback, but with the added thrill of open-top driving.

Available with a specially-designed **2.3-litre EcoBoost engine**, the all-new Ford Mustang is hungry for fun. Part of the International Engine of the Year family, this powerful new four-cylinder engine combines a twin-scroll turbocharger, direct injection and variable valve timing to deliver efficiency with real power and performance.

Performance of an epic scale is provided by our most powerful **5.0-litre V8**, with 418 PS (308 kW) and 524 Nm of torque. The numbers are impressive, but they fail to convey the rich endless power delivery that offers such outstanding flexibility. Or the engine's distinctive throaty growl that provides the soundtrack to every drive.

Mustang powered by
FORD EcoBoost

AGILE

The all-new Ford Mustang is designed to deliver world-class dynamics and ride quality. Starting with a stiff body structure as the foundation, the **fully-independent suspension** provides more precise wheel control, while enhancing handling, steering and comfort. It's not just new suspension. It's a whole new level of exhilaration.

Steering

Mustang's Electronic Power-Assisted Steering (EPAS) has three settings – Normal, Comfort and Sport – plus the ability to compensate for drift due to road camber or crosswinds, and to counteract any high-speed wheel imbalance.

Front suspension

Carefully-tuned front suspension uses a new double ball-joint MacPherson strut system. Mounted on a stiff subframe, it ensures excellent ride comfort and outstanding handling dynamics.

Rear suspension

Mustang's advanced multi-link independent rear suspension combines precise, agile handling with everyday refinement. Aluminium components reduce unsprung mass, while the stiff structure helps retain razor-sharp control of the wheels.

Braking system

We created Mustang's high-performance braking system with safety and control in mind. It features four-piston brake calipers, ventilated discs, anti-lock braking system (ABS), Emergency Brake Assist (EBA) and Electronic Brake Prefill for the best possible braking performance.

EXPRESSIVE

You didn't think it was possible to add more character to a car like this? Think again. Colours. Trims. Lighting. Audio. Wheels. So many ways to make your all-new Ford Mustang one of a kind. So many ways to make it yours.

The all-new Ford Mustang is coming soon - register for more information at ford.co.uk

The Ford Mustang is covered by the Ford Perforation Warranty for 12 years from the date of first registration. Subject to terms and conditions.

Note The vehicle images used are to illustrate body colours only and may not reflect current specification. Colours and trims reproduced within this brochure may vary from the actual colours, due to the limitations of the printing processes used.

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. **+**The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.
